| 52. a. far | b. near | c. large | d. little |

B. Read the following passage and answer the questions. (2.5)

Snow Leopards are big cats. They are endangered animals. This means that they are in danger of dying out. They live in the mountains of Central Asia. Their mountain homes are very cold. Some of the countries where they live are Mongolia, China, and India.

Snow leopards are not often seen by people. That makes it hard to know exactly how many of them are left. About 600 live in zoos around the world. It is thought that there are less than of 6,000 them still living in the forests, but there may be only half that many.

Adult snow leopards weigh between 28 and 55 kilograms. They are about two feet tall and six to seven and a half feet long. Weigh: وزن داشتن exactly: دقيقا

53. Where do snow leopards live?
 54. How many snow leopards live in the zoos around the world?
