Throughout school and university, they are reminded of <b>them</b> while their personalities develop. But still, we often forget to respect our elders. Respecting elders should come from within. Respecting elders come under good habits and manners. Everyone welcomes a well-behaved</p>  | 2 |

person. As we all know, **history repeats itself**. If we will respect our elders today, we will get respect when we grow old.

There are many ways to show respect to elders. For example, they feel happy and honored when we include them in the decision making of the family. They are more experienced than us and they also have walked the same path before us. So, we should always ask for their advice.

Another way is listening to them and following their customs, which they have lived up to. We should also repeatedly visit them and invite them to our house, too. We should often sit and eat with them. All this will help us to recognize and **appreciate** our elders. Always remember that people are always judged by their actions and each word or action has a reaction. So, if you want to succeed and be happy in life, start respecting elders by being polite. Finally, I would like to say, our elders are really worthy and we should respect them.

**Passage (2)** Looking up words you don’t know can be difficult, especially if you don’t know which definition to choose when you open a dictionary. When to look up a word, how an English dictionary is compiled, and which description to choose will help you effectively use the dictionary to improve your understanding of the reading texts. First, decide when to use the dictionary. Guess the meaning of the word based on the context before looking **it** up. Read the whole sentence, and continue to read the paragraph to see if you can guess the meaning of the word based on the information surrounding it. Identify the part of speech, if you can, to help you find the meaning of the word. Look for prefixes, suffixes or roots that suggest the word meaning.

If you are still confused or think you are missing important information, now it is the time to take out the dictionary. Decide which type of dictionary to use. There are different types of dictionaries available. They are called online dictionaries, learner’s dictionaries, bilingual dictionaries, and monolingual dictionaries.
